RR81298 - First 2-70W Recessed Lensed Downlight - Submittal #107

RR81275 - First 2-57W Recessed Lensed Downlight - Submittal #108

PR81279 - First 3-57W Pendant Cylinder Open Downlight - Submittal #109

Features:

- An alternative to metal halide: Advantages include instant start, instant restrike, multilevel switching and dimming.
- Open designs: Low iridescent specular Alzak® 100% aluminum self-flanged reflectors. Several optional cone colors and finishes available.
- Lensed designs: Seamless tapered black OptiGroove with white flange or all white smooth tapered self-flanged trims. Several lenses available.
- Seamless all-aluminum acrylic enameled surface cylinders. Several optional colors or custom colors offered.
- Optional wall bracket mount (-WB) for PR81279.
- All-aluminum recessed and surface housings are lightweight for easy installation and rustproof and cool for long life.
- Kirlin's exclusive three year limited warranty, complete fixture, including ballast.

Alzak® is a registered trademark of ALCOA.
